## Around Town

### Metrocrest Services Discusses Homelessness in Addison and the Region

On Monday, November 6, Metrocrest Services Director of Homeless Resources Melanie Meijering shared some statistics surrounding homelessness and provided some ways the community can help address the issue.

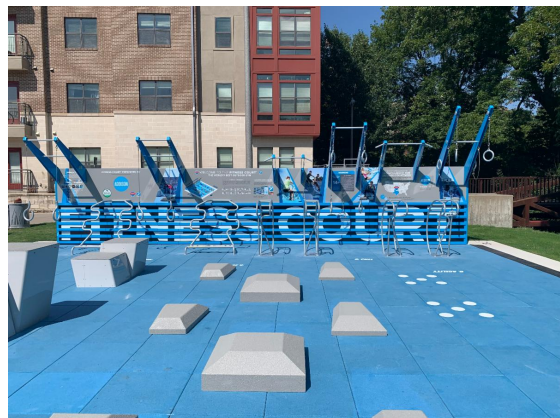

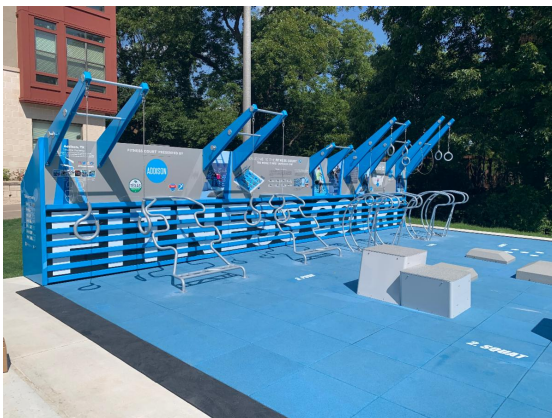

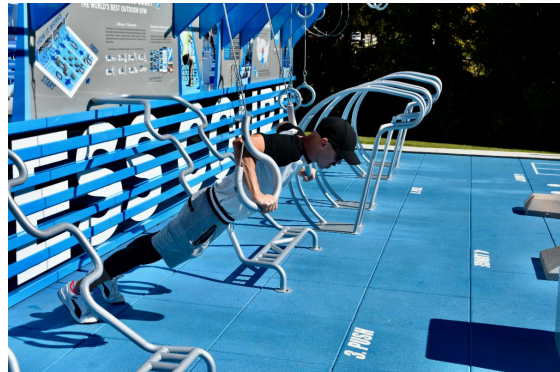

**Facts:**

- Texas ranks 5th in the country for the largest homeless population.
- Up to 78% of the U.S. population lives paycheck to paycheck and nearly half of those can't cover a \$400 emergency expense.
- 20% of the homeless population is chronically homeless.
- The U.S. is short 47 million affordable housing units; Dallas County is short 20,000.
- 38.6% of sheltered homeless individuals are disabled.
- The poverty line in Dallas County is \$14,880 per year for an individual adult and \$29,950 for a family of four.
- 99% of people living below the poverty line are NOT homeless.
- Dallas County has 2,000 beds for 4,500 unsheltered people.

Meijering explained that homelessness typically occurs when a crisis like an accident, job loss, or mental health breakdown hits someone already living on the edge of poverty, and they don't have any family or friends that are willing or able to help or they have lost the ability to connect with that support system. In the Metrocrest area, the average number of years an individual has been homeless is 4.34. Some of the gaps in service that contribute to that timeline include obvious issues such as lack of shelter beds and affordable housing, but other issues such as access to showers and laundry and lost or stolen i.d.s are serious impediments to finding and keeping jobs.

### Something Fishy is Going on At Vitruvian Pond

On Friday, November 3, Dallas artist Pascale M. Pryor installed *Quintet*, a composition of five steel and glass fish sculptures arranged in a dynamic "school" formation, at Vitruvian Park. Located south of the Amphitheater and adjacent to the park's pond, the sculptures measure a combined length of 25 feet, with the tallest reaching a maximum height of 42 inches.

Pryor's use of steel and glass materials allows for an intriguing interplay of light and color, enhancing the sculptures' visual appeal. The installation is a collaboration between the Town of Addison, the Addison Arbor Foundation, and UDR. Pryor also created "Aigue-Marine" in Bosque Park.

Make sure to stop by during Vitruvian Lights and check out this fin-tastic new addition to Addison's public art scene.
