Advance Addison 2050 Vision Values and Priority Outcomes Survey Now Live

The Town of Addison is working to develop a new Comprehensive Plan that will take our community to the next level! Your participation and input are a valuable resource for our community. The new Vision, Values, and Priority Outcomes Survey is now available on AdvanceAddison.com! This survey is a critical step in the community engagement process for this plan and will cover the following topics:

- Community Perception
- Community Vision, Guiding Principles, and Desired Outcomes
- Land Use & Development Character
- Housing and Neighborhoods
- Economic Development & Revitalization
- Mobility and Connectivity
- Infrastructure, Public Amenities, and the Environment

The project team will use the input gathered from this survey to develop initial scenarios, which will be discussed and refined further in future in-person and online activities. Once a consensus vision for the future has been achieved, innovative planning strategies will be developed to guide the long-term implementation of that vision. Your progress can be saved if you need to complete the survey in more than one sitting. It will be open through December 31.

We are looking forward to planning Addison's future with you!
